

RFID, CHIP & MAGNETIC STRIPE CARD ISSUING MACHINE CRT-591

DISPOSITIVO DE LECTURA Y ESCRITURA DE INTEGRACIÓN ROBUSTO Y COMPACTO

function.

- Removable stacker with locking function.
- Easy and precise card adjustment by turn-knob device.
- Compact and robust design.

Applications:

- Parking system
- Automatic card vending machine
- Highway card issuing system
- Card batch initialization
- Ticket vending system.

- Multi technology RFID, chip & magnetic stripe card read&write.
 - Read/Write Chip card.
 - Read/Write RFID card.
 - Magnetic card reading only.
 - All technologies combined.
- With cards pre-empty detection.
- Stable card dispensing/capturing/accepting

Technical specifications:

Model	CRT-591
Features	▼ Magnetic card read/write
	▼ IC/RFID card read/write
	▼ Dispense & accept cards
Application	▼ Card parking system
	▼ Card issuing machine
	▼ Card vending machine
Specifications	
Card standard	Magnetic Card: ISO7810 ID-1, 7811
	IC Card: ISO7816-2
	RFID Card: ISO14443 Type A/B
Card Thickness	0.4-1.0mm
Stacker Capability	120pcs (0.76mm standard card)
Removable Stacker	240pcs / 500pcs
Card pre-empty detection	10-70pcs +/- 2pcs (0.76mm standard card)
Communication	RS-232 /USB
Power supply	DC 24V +/-5%
Temperature/Humidity	Operation: 0~50°C / 0~90% RH(Non-condensing)
	Storage: -25~80°C / 0~95% RH(Non-condensing)
Dimension	292x147x175mm
Weight	About. 4kg
